

## State SCY Meet at EPCC: COVID-19 Safety Plan Details

Current applicable federal, state, local, and facility orders regarding size of gatherings, other COVID-19 protocols, etc. (include links where appropriate)
<b>As of May 28, 2021, nearly all State of Minnesota COVID-19 restrictions came to an end, including all capacity limits and distancing requirements – both indoors and outdoors.</b>
<b>Venue cleaning protocols for before, during, and after the event</b>
The Eden Prairie Community Center will take action to maintain a clean environment consistent with Minnesota rules and regulations.
<b>Face-covering requirements and enforcement for unvaccinated attendees</b>
Not knowing who is and who is not vaccinated, Minnesota Masters is not in a position to enforce face covering. Will follow all guidelines posted at the Eden Prairie Community Center for face coverings.
<b>Modifications to registration and check-in area and process</b>
Swimmers are encouraged to maintain a safe distance from each other while in any lines.
<b>Warm-up social distancing requirements and enforcement</b>
Unvaccinated swimmers are encouraged to stay as far away from other swimmers as possible while in the water and not to “hang” at pool walls.
<b>Venue facilities that are available and off-limits to participants</b>
Signs will be posted throughout the Eden Prairie Community Center to indicate any off-limit areas.
<b>Swimmer requirements for races (entering and exiting the water)</b>
There will be no special requirements for vaccinated swimmers. Unvaccinated swimmers are encouraged to maintain face coverings except during those steps necessary to gain access to the starting blocks and while retrieving their masks after exiting the water.
<b>Other participant interaction modifications (awards, results, etc.)</b>
There will be no awards ceremonies. Heat sheets will not be posted at the venue. Results will not be posted at the venue unless the Meet Director deems it safe and consistent with state and local regulations.
<b>Post-event notification protocol, in the event that an attendee subsequently tests positive for COVID-19</b>
All meet attendees will be informed by email within two days of Minnesota Masters receiving information that a meet attendee had tested positive for COVID-19.

**Please note: Rules generated by the City of Eden Prairie will take precedence over any less stringent rules promulgated by Minnesota Masters.**
